

Krista Mutual Water Co

Dear shareholders,

PLEASE CALL THE OFFICE AND UPDATE YOU CONTACT INFO! We need this to let you know when you may lose water or in case of boil notices! We need your phone number to be current.

Meter/Wellsite/Generator Grant

&

Krista Fluoride Contamination Planning Project State Revolving Fund Grant

The State has approved the meter bid to move forward, our meters and boxes have been ordered and we are anticipating an August start for the meter installation.

The generator and well site improvements will be done in a separate bid. We may even be separating those into two different projects so we can get the generator sooner. We have been working diligently with Lebec, the state, our engineers, and consultants at Self-Help Enterprises to annex with Lebec. The project is big and will include getting an easement with Tejon Ranch for the property across the street from our well site located on Lebec rd. and Clear Canyon. At this location we will be building a blending station and constructing a distribution line from Lebec to this site and joining our well to the blending station. With Lebec's water we will be able to lower the fluoride levels and provide water below the maximum contaminant level (MCL) of 2.0 mg/L. The new designs will make the need for a different size of generator, and pump and motor at our well site. We have a long way to go before we are taking on as Lebec's customers.

Water Restrictions

We know this seems crazy with all the snow and weather we have been seeing but the rain/snow must percolate through the earth to recharge the aquifer, groundwater can take years to recover. We have not seen our well levels rise yet; it will take more than one good winter to recover. If the drought has taught us anything, it is that water is valuable, we still should use it wisely. We ask that **even** number houses water only on Monday, Wednesday and Fridays, and **odd** number houses water Tuesday, Thursday, and Saturdays. **No** watering from 10 am to 5 pm.

As always you are invited to our board meetings which are held via zoom or at our office the last Monday of the month at 1:00pm.

Thank you

Board of Directors

The agenda can be found on our website with the zoom info at <https://kristamutualwater.com/>.

We look forward to seeing you.
